- Global instrument providing visibility of selected SAP transactions via the internet in real time
- Used to Manage business with Black & Decker
- Saves time and improves information flow to and from suppliers
- Important messages to suppliers are posted on the Supplier Connect home page
- Provides supplier access to prints and other information

- Saves communication time
- Readily available, established global communications instrument
- Schedule available earlier
- Visibility to B&D system at any time
- Effective / Modern / Fast / Efficient communications
- Easy to use

- Supplier User requests account online at:
<http://gsp.sbdinc.com>
- SBD Plant approvers approve accounts
- Each user should have their own account
 - Password and username should not be shared
 - Additional users can be set up as needed
- Users can currently access GTS information only
- Users can only access information for specific/assigned vendor numbers
- Help Desk:
 - Global help desk GlobalServiceDesk@sbdinc.com or 1-877-435-7337 Option 2
 - Asia Help Desk HelpDesk.AsiaPac@sbdinc.com.

Non GSMA Suppliers

Standard Suppliers

- Open Orders
- Order (Vender) Exceptions
- Order Forecast
- ASN Submission
- History Report (receipt)
- Drawing (print) Access
- B&D Important Communications

Consignment Suppliers

- All Standard function Plus:
- Consignment Liability (usage) Report
- Consignment Inventory Report
- Pulls and Receipts
- Stock Overview

JITK Suppliers

- All Consignment function Plus:
- Vendor Inventory Receipt

GSMA Suppliers

- Proforma PO Requests
- Proforma PO Confirmation
- Order Forecast
- eBooking
- Confirmation of Shipment
- Supplier Commercial Invoice
- Vendor Line Items reporting

- Use Supplier Connect to get order information and forecasting
- Monitor exception report as needed and respond
- React on the Schedule + Exception messages
- Date on the schedule = Delivery Date in Plant
- Respond with shipping information
- Provide information concerning possible production delays
- Use specified reports to monitor flow of parts / inventory
- Know your service level performance

To log into the Global Supplier Portal:

Step 1: Open Internet Explorer and go to the new URL: <http://gsp.sbdinc.com>

Step 2: Click the Sign In link

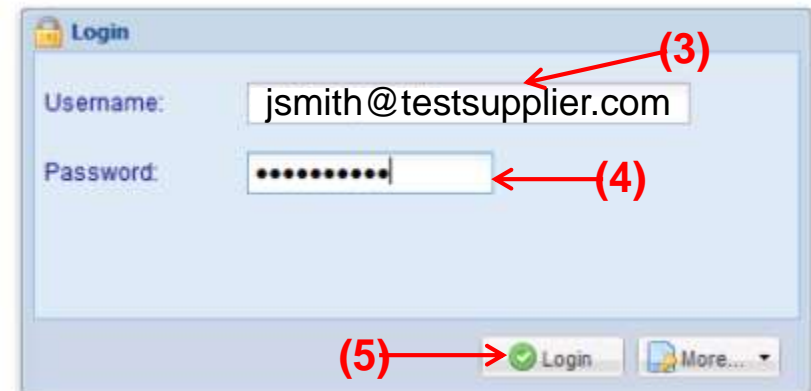

Note: if you need to register for an account see page 10 of this document

Step 3: Enter your Username (this will be your email address)

Step 4: Enter your Password

Step 5: Click the Login button

Note:

- For SBD users: use your Americas domain username and password

The home page gives you access to the following information:

- Access to your transactions **(A)**
- Access to Supplier Connect and other Documentation **(B)**
- Announcements **(C)**
- Contact SBD functionality **(D)**

The Announcement section is used by Black & Decker to post messages to suppliers. The announcements are highlighted based on importance; High in **red**, Medium in **yellow**, Normal in **green**. To read the complete message simply click on the message title **(1)**.

Global Supplier Portal Transaction Groups

[Back](#)

Transactions have been categorized & grouped under buttons based on business use:

- | | |
|---------------|---|
| e Sourcing | = Access to the SBD eSourcing applications |
| e Orders | = Transactions involving planning and inventory |
| e Fulfill | = Transactions around the transport of materials from supplier to SBD |
| e Pay | = Report related to supplier financial transactions |
| e Quality | = Provides supplier quality feedback and corrective actions collaboration |
| e VMI | = Provides unique information for suppliers on VMI program |
| e JIT | = Provides unique information for suppliers on JIT program |
| e Consign | = Provides unique information for suppliers on Consignment program |
| e RSDS | = Allows suppliers to declare compliance with SBD chemical policy |
| e Engineering | = Provides access to drawings and other material specifications |
| e Scorecard | = Provides feedback to suppliers on performance |
| e Admin | = Administration functions for the Global Supplier Portal |

The eOrder transactions are grouped into two subsections.

The screenshot shows the StanleyBlack&Decker Global Supplier Portal interface. At the top left is the StanleyBlack&Decker logo. On the top right, it says "Logged in as: Jeff" with links for "Sign Out" and "Update Profile". Below the logo is the "Global Supplier Portal" title. A navigation bar contains "Home", "Public", and "Contact Us". A secondary navigation bar lists various modules: "eOrder", "eFullFill", "ePay", "eSource", "eVMI", "eJIT", "eConsign", "eQuality", "eRSDS", "eEngineering", "eScorecard", and "eAdmin". The main content area is titled "eOrder" and is divided into two sections: "Order Information" and "Inventory Information".

Weekly Open Orders By Vendor Transaction

- Transaction should be ran by supplier to view current Orders
- Provides open orders detail for both Firm and Planned (forecast) orders*
 - *For suppliers using Discrete PO's this report only shows Firm orders
 - *Discrete PO suppliers can use MFG SRO report for forecast
- Information is real-time and does not require an overnight update
- Repot can be exported to Excel and saved for a weekly history of orders
- The Excel file can also be used to respond to planners with shipping information and other comments
- The report can provide a forecast for one year of data

Weekly Open Orders By Vendor Transaction

To run this transaction follow the steps below:

1. If you have multiple vendor numbers in you profile, select the correct number using the dropdown
2. If you wish to see order for only a specific material number enter that number. If you lever this section blank the system will pull information on all of your material numbers
3. Select the plant number you which to run the report for
4. Enter a From and To date to restrict your report to a specific date range. It is recommended to leaving the From date blank which will provide any past due orders
5. In the status section choose if you wish to see only **Firm** orders, **Planned (Forecast)** orders, or **All** (firm and planned) orders.
6. You may select the date format you prefer
 - For US: MM-DD-YY (Month-Day-Year)
 - For Europe: DD-MM-YY (Day-Month-Year)
7. If you wish to export an Excel file select the checkbox
8. Click on the Execute button

Weekly Open Orders By Vendor Transaction

The onscreen display will appear as below:

The report is sorted by Material **(A)** number and then by Delivery Date **(B)**. The Delivery date is the date due at the B&D Plant

The order quantity is displayed in the Scheduled Quantity column **(C)**. Any quantity received against the order is displayed in the Delivered Quantity column **(D)**. Any remaining quantity due is displayed in the Balance column **(E)** this is the quantity the supplier should deliver.

If you chose All in the status section of the entry screen the report shows both Firm and Planned orders and the display is indicated as All orders **(F)**. The status (Firm, Planned) of individual orders is not indicated in the table. To distinguish between Firm and Planned orders you must run the report with Firm **(G)** and/or Planned selected in the status section of the data entry screen (see previous page) and compare them to this report.

Weekly Open Orders By Vendor Transaction

The Excel file will appear as below:

The report will contain all of the same information as the onscreen report described on the previous page

Additionally the file provides three additional columns that can be used to communicate to the planner

- You can fill out the Ship Quantity **(A)**, Ship Date **(B)** and Carrier **(C)** in this file and send it to the planner as needed.
- Please coordinate with your planner to see how and if they wish to use this file
- In most cases you will want to export an Excel file with Firm only orders **(D)** for this purpose (see the previous two pages for how to do this)

Manufacturing SRO Forecast Transaction

- This transaction is use for Non-GSMA suppliers only. GSMA suppliers have a separate SRO forecast that is described seperatly.
- Transaction should be ran by supplier using Discrete PO's to view current forecast orders
- Displays only forecast orders these are not firm orders
- Information is updated daily through an overnight update
- Repot can be exported to Excel and saved for a weekly history of orders
- The Excel file can also be used to respond to planners with shipping information and other comments
- The report can provide a forecast for one year of data

Manufacturing SRO Forecast

To run this transaction follow the steps below:

1. If you have multiple vendor numbers in you profile, select the correct number using the dropdown
2. Select the Raw Data or Capacity View
3. If you wish to export an Excel file select the checkbox
4. Click on the Execute button

Vendor Exception List Transaction

- Exceptions are not new orders or a new schedule, it is a requested change to a firm order by Black & Decker (inside system lead time)
- Transaction should be ran by supplier Daily or as needed depending on the amount of product being shipped to Black & Decker
- Information is real-time and does not require an overnight update
- Displays the Firm delivery date and the requested New delivery date
- The system will not make these changes without the suppliers approval
- Exceptions will only go away when the supplier accepts the change via Supplier Connect, the planner makes an adjustment with suppliers approval, or the parts are received
- Repot can be exported to Excel and saved for a weekly history of orders
- The Excel file can also be used to respond to planners with shipping information and other comments

Vendor Exception List Transaction

To run this transaction follow the steps below:

1. If you have multiple vendor numbers in your profile, select the correct number using the dropdown
2. Select the plant number you wish to run the transaction against
3. If you wish to see Exceptions for only a specific material number enter that number. If you leave this section blank the system will pull information on all of your material numbers
4. You may select the date format you prefer
 - For US: MM-DD-YY (Month-Day-Year)
 - For Europe: DD-MM-YY (Day-Month-Year)
5. If you wish to export an Excel file select the checkbox
6. Click on the Execute button

Vendor Exception List Transaction

The onscreen display will appear as below:

The information is sorted by Material **(A)** number and then by Original Delivery Date **(B)**

The Exception Message **(C)** indicates if the request is a Move Out (a date after then the original) or a Move In (a date before the original)

The Reschedule Date **(D)** is the new delivery date that Black & Decker is requesting

You have three options with a exception; you can Accept it as is **(E)**, Accept is with a change **(F)**, or reject it by doing nothing.
Note: If you choose to do nothing the exception will remain on the list until the parts are received.

Vendor Exceptions List

Select All Date Format: MM/DD/YYYY

Vendor Exception List Transaction

To Accept the new delivery date request by B&D as is follow the steps below:

1. Check the checkbox to the left of the line
2. Click the Accept button

This will change the due date of the open order to the Reschedule Date. So, if you run the Weekly Open Order by Vendor Report again you will see the Rescheduled Date is now the due date for that order.

Stock Overview Transaction

- Provides a total inventory on hand
- Breaks down the Consignment and B&D owned inventory
- Lists storage locations of inventory

Stock Overview Transaction

To run this transaction follow the steps below:

1. Enter the material number you want to run the report on. This report requires a material number
2. If you have multiple vendor numbers in your profile, select the correct number using the dropdown
3. Select the plant number you wish to run the transaction against
4. If you wish to export an Excel file select the checkbox
5. Click on the Execute button

Stock Overview

Material: 143597-01 (1)

Vendor: 20000000 (2)

Plant: 67 (3)

Excel: (4)

Execute (5)

© 2008 Black & Decker Version 2.0

The screenshot shows a web form titled "Stock Overview". It contains five input fields: "Material" (text box with "143597-01"), "Vendor" (dropdown menu with "20000000"), "Plant" (dropdown menu with "67"), "Excel" (checkbox), and "Execute" (button). Red arrows with numbers (1) through (5) point to each field respectively. The "Execute" button is highlighted in grey.

Stock Overview Transaction

The onscreen display will appear as below:

The Unrestr Qty **(A)** indicates the B&D owned inventory. The Consign Qty **(B)** indicates the quantity in inventory at B&D

The S Loc **(C)** indicates the B&D storage location

The first row **(D)** is the summary information for the material number at the indicated plant

The lower section of the screen **(E)** indicates the detailed information for the inventory and its storage location

Material Document List Transaction

- May also be required for reconciliation
- Used to determine pulls made after weekly consignment liability report
- Should not be needed if other reports are run Monday morning
- Can also provide receipt information

Material Document List Transaction

To run this transaction follow the steps below:

1. If you wish to see the report for only a specific material number enter that number. If you leave this section blank the system will pull information on all of your material numbers
2. Select the plant number you want to run the transaction against
3. If you have multiple vendor numbers in your profile, select the correct number using the dropdown
4. Choose the movement type(s) you want included in the report
5. Enter a From and To date to restrict your report to a specific date range. It is recommended to enter a range or all movements will be included in the report which will create a large report
6. If you wish to export an Excel file select the checkbox
7. Click on the Execute button

Where Used Transaction

- For parts that go into final units, the report provides a list of the SKU's that use the part
- For parts that go into sub-assemblies, the report provides a list of the assembly numbers that use the part

Where Used Transaction

To run this transaction follow the steps below:

1. Enter the material number you want to run the report on
2. Select the plant number you which to run the transaction against
3. The Valid From date defaults to the date you run the report. If you wish to look at a report from an earlier date enter that date
4. If you wish to export an Excel file select the checkbox
5. Click on the Execute button

ASN Functionality (Advanced Ship Notice)

- The ASN functionality allows suppliers to submit an Advanced Ship Notice for shipments coming to SBD.
- A single order can have multiple ASNs created against it if the order is shipped in partials.
- However all ASNs for a given order can not exceed the total quantity of the original order.
- The ASN then creates an Inbound Delivery in SBDs SAP system.
- Not all orders can have an ASN created against it, the order must have been created with the acknowledge confirmation setting set within SAP.
- See updated instructions at the following URL:
https://gsp.sbdinc.com/Documents/Public/Training%20Document/Global%20Supplier%20Portal/Supplier%20-%20ASN%20Creation_Global%20Supplier%20Portal.PDF

eBooking

- The eBooking link within the Global Supplier Portal is a single sign on into the K&N booking system.
- If you ship via K&N you can have your K&N linked to the Global Supplier Portal.
- If you wish to have this setup please contact your SBD contact and have them reach out to their Global Supplier Power user for there plant/DC.

Barcodes Finished Goods

- Displays an example of barcode layout for labels required above unit level (1)
- Provides packaging information for all unit levels
- Only works for Finished Goods, it does not provide information for Component Parts
- Only works for product shipping onto North America

Barcodes Finished Goods

To run this transaction follow the steps below:

1. Enter the finished good (SKU) number you want to run the report on
2. Click on the Execute button

Barcodes Finished Goods

CAT. NO. XXXXXXXXXX QTY.: XXXX

PACK SIZE Pallet/bulk/case/master PACK

Confirmation of Shipment Transaction

(to confirm cargo delivery via Portal)

GSMA
Suppliers
Only

Supplier should do confirmation of shipment for every order they shipped out on / before five days of on board date. For FOB shipments, the confirmation has to be done right after receiving the fax documents.

确认出货：通过GPA网络确认货物运输

供应商需在装船后五天内对每个已出货的订单做出货确认。而外部（百得集團外部客戶）訂單, 則需在收到傳真文件後确认货物运输

1) Confirmation of Shipment 确认出货

• Supplier should perform confirmation of shipment for each shipment that is invoiced B&D Macao Commercial Offshore Ltd

• 在目录中选择第一项. “Confirmation of Shipment” (确认出货)

通过Global Supplier Portal确认出货

供应商应该完成出货确认, 每次出货开发票给 B&D Macao Commercial Offshore Ltd

• Enter the Vendor Code which is on GSMA (SBD) purchase order and click on ‘EXECUTE’ button.

• 输入订单上所显示的供应商代码并且点击 ‘EXECUTE’ 键

2) Select Order Lines 选择订单行

- To select the line(s) for the item(s) is shipped per each supplier invoice - 以每张**发票**为单位来选择已经出货的订单行。
 - Click on the “Select All” button to select all the lines if applicable. - 如果需要的话，点击 “Select All”（全选）按钮，选择所有的行数。
 - If only one or some of the lines are shipped, check the box on the left hand side to select the line.
 - 如果只有一个或部分的行数已经发运，就勾选左边的方框。
 - Check Material # and unit price, and ensure they match with those on supplier invoice. Contact GPA Supply Chain if clarification or amendment on GPA PO is required.
 - 核对料号和单价，并确保与那些和你们开具的发票相符合。如果需要澄清或修改GPA的订单，那么请联系GPA物流控制专员。
 - IMPORTANT: If actual shipped quantity is different from the line order quantity, supplier can **change and enter the actual shipped quantity in the next screen.**
 - 重要的：如果实际出货数量与网上定购的数量不同，供应商可以更改，并输入实际发货数量。
 - Click “Select” at the bottom. - 在底部点击 “Select”
- In this example, PO#2092215 Line #60 and #130 were selected. Click “Select” button to continue.
 在这个例子中，供应商订单号2092215，行数60和130是被选择的。点击 “Select”按钮继续。

Confirmation of Shipment – Execution 确认出货—完成

- Enter “Invoice number”, “On Board Date” and “Container Number” in the header field accordingly.
 - 在标题栏输入“发票号码”，“船期”和“集装箱号码”
- Click “Copy” button to copy the container number in header field to all of the order lines listed below.
 - 点击“Copy”按钮来复制在标题栏的集装箱号码到下面所有订单行中。
- If one invoice includes more than one container numbers, then leave blank “Container number” in header field and enter the container number in the box left to each order line.
 - 如果一张发票包括一个以上的货柜号码，那么允许空白在标题栏处的“集装箱号码”，并在方块左边每个订单行中输入每一个货柜号码。

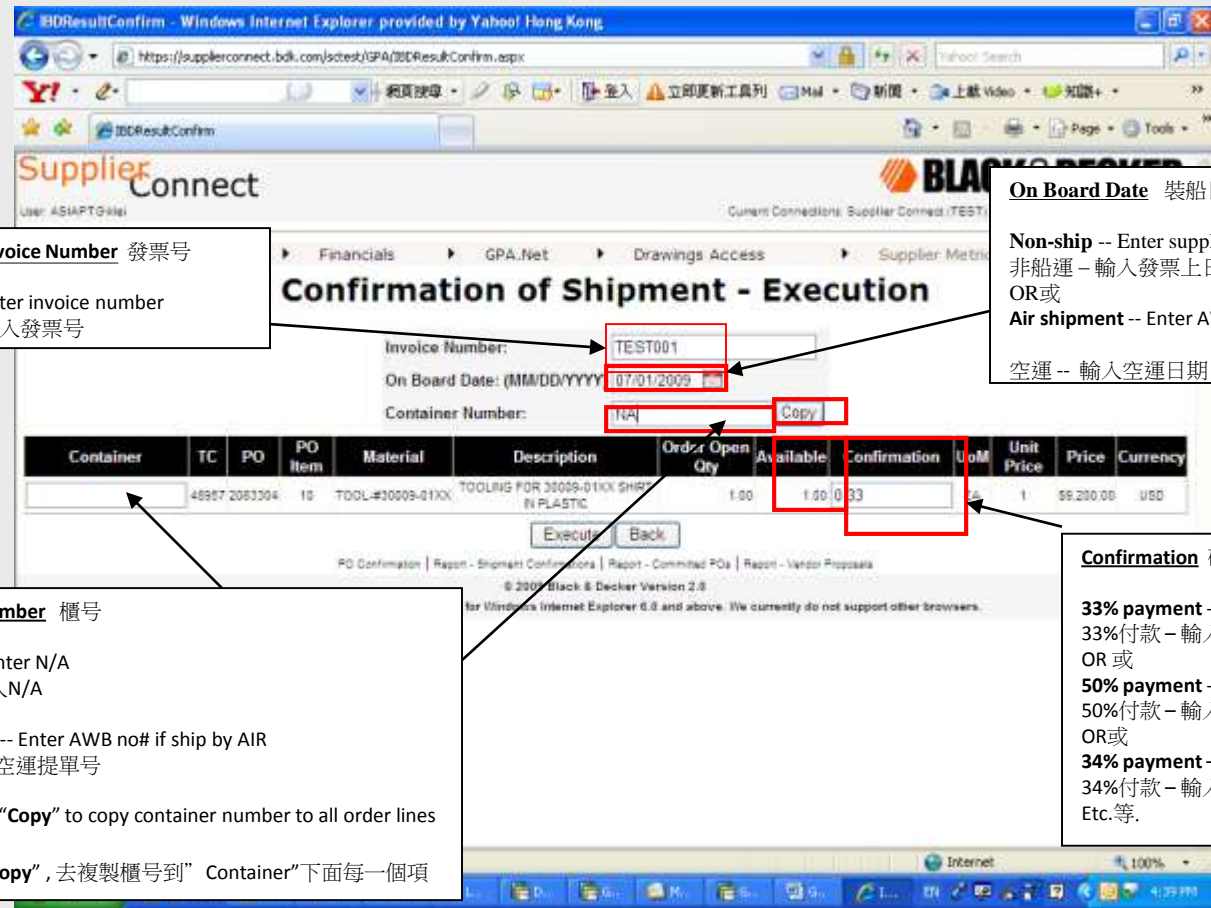

<u>Type of shipment (出货方式)</u>	<u>Field “Container Number” (“集装箱号码”区域)</u>
<u>FCL shipment (整柜货物)</u>	<u>Container number (集装箱号码)</u>
<u>LCL / Buyer consolidation shipment (拼柜货物)</u>	<u>Container number / Seaway bill number (集装箱号码/海运单号码)</u>
<u>Air freight shipment (空运)</u>	<u>House Airway bill number (空运单号码)</u>

- Enter the **actual shipped quantity** in the confirmation column. The quantity may be less than or equal to the outstanding quantity.
 - 在确认栏输入实际出货数量。数量可能会小于或等于现有订单数量。

5) Invoice Data Validation 發票資料生效

Information box pops up to allow the supplier to verify the shipping information, then click “Confirm”

資料表跳出讓供應商確認船運資料, 然後按 ” Confirm”

The screenshot shows a web interface for preparing a supplier commercial invoice. The main window is titled "Prepare Supplier Commercial Invoice" and contains the following information:

- Supplier Code: 20005029
- Supplier Name: XIAMEN LOTA INTL CO. LTD
- Supplier Invoice No: TEST001

An "Invoice Data Validation" pop-up window is displayed in the center, containing the following information:

- Bill of Lading Date: 07/01/2009
- Supplier Invoice Date: 07/15/2009
- Vessel & Voyage / Ship Via: DOWN PAYMENT

A warning message in the pop-up states: "After confirmation, the entered values won't be modifiable and will be used for invoicing and payment. Please confirm if all entered data is accurate." Below the message are "Confirm" and "Cancel" buttons. An arrow points from the "Confirm" button to a text box below the screenshot.

Please double check the information before click “Confirm”, it can not go back and revise the data!!

還沒有按” Confirm”之前, 請重覆檢查資料是否正確, 因為按” Confirm”以後是不能回到前一個版面去修改資料!!

[Weekly Supplier Consignment Liability Status Report](#)

Weekly Consignment Liability Status Report

- Provides previous week's inventory movements (consignment pulls)
 - Shows materials converted from consignment to B&D owned
- Report covers period from Monday 12:01 AM (0001) to Sunday 12:00 PM (2400)
- Report available Monday morning
- Report subtotals and excel button at bottom of report
- Shows price to be paid (individual and subtotals)
- Provides invoice number for the specific plant, supplier, and week combination
- No blocked invoices
- No invoicing from the supplier

Weekly Consignment Liability Status Report

To run this transaction follow the steps below:

1. If you have multiple vendor numbers in your profile, select the correct number using the dropdown
2. If you wish to see the report for only a specific material number enter that number. If you leave this section blank the system will pull information on all of your material numbers
3. Enter the appropriate Company Code for the part(s) you are running the report on
4. Select the plant number you want to run the transaction against
5. Choose the invoice date which should be the Monday following the week you are requesting information about
6. Click on the Execute button

Weekly Consignment Liability Status

Vendor: 20000000 (1)

- There is currently no functionality available under the Quality section of the Global Supplier Portal. SBD intends to develop this section in the future.

This section contains information on how to access the SBD VMI system

The screenshot shows the Stanley Black & Decker Global Supplier Portal interface. At the top left is the Stanley Black & Decker logo. On the top right, it says "Logged in as: Jeff" with links for "Sign Out" and "Update Profile". Below the logo is the text "Global Supplier Portal". A navigation bar contains links for "Home", "Public", and "Contact Us". Below that is a secondary navigation bar with links for "eOrder", "eFullFill", "ePay", "eSource", "eVMI", "eJIT", "eConsign", "eQuality", "eRSDS", "eEngineering", "eScorecard", and "eAdmin". The main content area is titled "eVMI" and contains the following instructions:

To Access Stanley VMI Portal

- 1) First logon into our SSL VPN with UserName and Password (Given by Steve Liebert)
<https://ssl.stanleyworks.com/extranet>
- 2) Now you will have access to VMI software. Use the software with UserName and Password
- 3) VMI Sterling Web Forms
<https://www.sterlingwebforms.com/webforms/scripts/default.asp?DisplayLang=English>

The screenshot shows the Stanley Black & Decker Global Supplier Portal. At the top left is the Stanley Black & Decker logo. At the top right, it says "Logged in as: Jeff" with links for "Sign Out" and "Update Profile". Below the logo is the text "Global Supplier Portal". A navigation bar contains links for "Home", "Public", and "Contact Us". Below that is a secondary navigation bar with links for "eOrder", "eFullFill", "ePay", "eSource", "eVMI", "eJIT", "eConsign", "eQuality", "eRSDS", "eEngineering", "eScorecard", and "eAdmin". The main content area is titled "eJIT" and contains two blue hyperlinks: "[JIT Vendor Receipt](#)" and "[JIT \(Consignment\) Inventory](#)".

JIT Vendor Receipt

- Input screen for local (JITK) consignment suppliers to receive new stock into consignment
- Provides visibility for planning purposes
- Allows for accurate service level measurement for JITK suppliers
- Can make inventory adjustments by selecting reverse under movement type drop down

JIT Vendor Receipt

To run this transaction follow the steps below:

1. If you have multiple vendor numbers in your profile, select the correct number using the dropdown
2. Enter the material number for which you want to enter a JIT transaction
Note: You do not need to enter the full material number.
Example: Entering 147 will find material number 147793-00 and all other materials starting with 147793-00
3. Select the plant number you deliver JIT
4. Click on the Execute button

JIT Vendor Receipts

Vendor:	<input type="text" value="20000000"/>	<input type="button" value="v"/>	← (1)
Material:	<input type="text"/>		← (2)
Plant:	<input type="text" value="21"/>	<input type="button" value="v"/>	← (3)
	<input type="button" value="Execute"/>		← (4)

JIT Vendor Receipt

The onscreen display will appear as below:

Material **(A)** indicates the materials you are setup as a JIT supplier on

Stock (JITK) **(B)** indicates the quantity of parts you currently have in inventory on your floor

The Available For Delivery field **(C)** is the field you enter the quantity of stock you will be putting into inventory or removing from inventory

JIT Vendor Receipts

JIT (Consignment) Inventory

- Run report for each plant
- Report shows live information
- Need to run on Monday for reconciliation
- Consignment inventory should match your records after adjusting for the consignment liability report information
- Duplication of SAP MB54 screen

Consignment Inventory – MB54

To run this transaction follow the steps below:

1. If you have multiple vendor numbers in your profile, select the correct number using the dropdown
2. If you wish to run the report on a specific material number enter that number. If you leave this section blank the system will pull information on all of your material numbers
3. Select the plant number you wish to run the transaction against
4. If you wish to export an Excel file select the checkbox
5. Click on the Execute button

Weekly Consignment Liability Status Report

- Provides previous week's inventory movements (consignment pulls)
 - Shows materials converted from consignment to B&D owned
- Report covers period from Monday 12:01 AM (0001) to Sunday 12:00 PM (2400)
- Report available Monday morning
- Report subtotals and excel button at bottom of report
- Shows price to be paid (individual and subtotals)
- Provides invoice number for the specific plant, supplier, and week combination
- No blocked invoices
- No invoicing from the supplier

Weekly Consignment Liability Status Report

To run this transaction follow the steps below:

1. If you have multiple vendor numbers in your profile, select the correct number using the dropdown
2. If you wish to see the report for only a specific material number enter that number. If you leave this section blank the system will pull information on all of your material numbers
3. Enter the appropriate Company Code for the part(s) you are running the report on
4. Select the plant number you want to run the transaction against
5. Choose the invoice date which should be the Monday following the week you are requesting information about
6. Click on the Execute button

The screenshot shows the Stanley Black & Decker Global Supplier Portal interface. At the top left, the Stanley Black & Decker logo is displayed in a yellow banner. To the right, the text "Global Supplier Portal" is shown in a large, italicized font. Below the logo, there is a navigation bar with links for "Home", "Public", and "Contact Us". A secondary navigation bar contains links for "eOrder", "eFullFill", "ePay", "eSource", "eVMI", "eJIT", "eConsign", "eQuality", "eRSDS", "eEngineering", "eScorecard", and "eAdmin". The "eScorecard" link is highlighted. The main content area is titled "eScorecard" and contains two blue underlined links: "Vendor History Report" and "Vendor Service Level". In the top right corner, the user is logged in as "Jeff" with links for "Sign Out" and "Update Profile".

[Vendor History Report](#)

[Vendor Service Level](#)

Vendor History Report

- Used to see if a shipment has been received yet
- Also can check receipt quantity and piece price
 - Incorrect quantity or price will block non-consignment invoices
 - Issues identified earlier are easier to correct and can eliminate additional documentation
- Can tell if part is consignment or non-consignment
 - Consignment parts show as a \$0 value

Vendor History Report

To run this transaction follow the steps below:

1. If you have multiple vendor numbers in your profile, select the correct number using the dropdown
2. If you wish to see the report for only a specific material number enter that number. If you leave this section blank the system will pull information on all of your material numbers
3. Select the plant number you wish to run the transaction against
4. Enter a From and To date to restrict your report to a specific date range. It is recommended that you enter a date range or all shipments received from your company will be included in the report which could be a substantial amount of data
5. You may select the date format you prefer
 - For US: MM-DD-YY (Month-Day-Year)
 - For Europe: DD-MM-YY (Day-Month-Year)
6. If you wish to export an Excel file select the checkbox
7. Click on the Execute button

Vendor History Report

The onscreen display will appear as below:

The PO **(A)** indicates the purchase order or scheduling agreement number

The Material **(B)** indicates the material or part number received

The Reception Date **(C)** indicates the date the materials were received in the B&D plant

The Qty **(D)** indicates the quantity received at the B&D plant

The Value **(E)** indicates the dollar value of the material received (if this is a consignment part the value is listed as 0)

The Doc. No. **(F)** has no meaning to the supplier but is a reference number for B&D with the transaction details.

Vendor History

PO	PO Item	Material	Description	Reception Date	Qty	Value	Currency	Doc. No.
5064628	10	397684-00	KITBOX, LARGE ROUTER	12/04/2007	650.00	\$0.00	USD	5000836777

Total					3,880.00	\$0.00		

This data has been queried against the North American Test SAP R/3 System.

Vendor Service Level

- Can run for a time period
- Need to run for each plant
- Part detail is supplied
- History is available starting week 28/2006
- Can not run for current week
- Report measures receipt date vs. due date on a per part – not order basis
- Partial shipments get partial credit

Vendor Service Level

To run this transaction follow the steps below:

1. Select a From and To week to restrict your report to a specific date range.
2. If you have multiple vendor numbers in your profile, select the correct number using the dropdown
3. Select the plant number you which to run the transaction against
4. Click on the Execute button

Vendor Service Level

The screenshot shows a web form titled "Vendor Service Level". It contains four main input areas: "Week From:" with a dropdown menu showing "49/2007", "Week To:" with a dropdown menu showing "06/2008", "Vendor:" with a dropdown menu showing "20000000", and "Plant:" with a dropdown menu showing "67". Below these is an "Execute" button. Red arrows with numbers in parentheses point to each of these four elements: (1) points to the "Week To:" dropdown, (2) points to the "Vendor:" dropdown, (3) points to the "Plant:" dropdown, and (4) points to the "Execute" button. At the bottom of the form, there is a copyright notice: "© 2008 Black & Decker Version 2.0".

Vendor Service Level

The onscreen display will appear as below:

- (A) indicates the overall service level for a supplier for the given period of time
- Scheduled Qty (B) indicates the quantity that was scheduled to be delivered
- GR Qty (C) indicates the quantity of goods (parts) received on time
- (D) indicates the service level percentage of that shipment

Vendor Service Level

(A) Plant: 67
 Service Level: 97%

Week From: 49/2007 To: 40/2008
